

The Unmanned Aerial Vehicle Club of Notre Dame

About Us

New drone engineering club that designs, develops, and competes in competitions

Interdisciplinary club with members from various areas of study and Notre Dame colleges

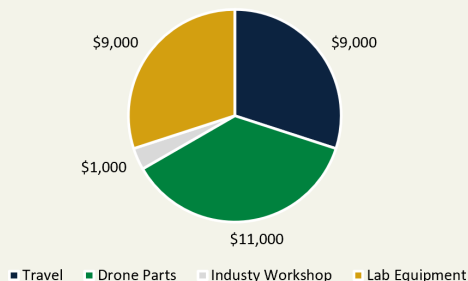

Plan to connect with industry professionals to learn from their experience

Competing in the AUVSI-SUAS Competition in 2021

2020-21 Budget

Our Mission Statement

"UAVND seeks to provide students interested in unmanned aerial vehicles with the ability to act on their interest and explore the professional world surrounding this rapidly expanding field."
